

Antique & Coloured Mirror

Technical Specification

Standard Sheet Size	2440 x 1830mm
Thickness	5mm or 6mm
Cutting	Vegetable White Mineral Oil It is recommended to "wash off" any excess cutting oils used as this may alter the protective backing of the mirror
Grinding	Swipe edges before grinding. Edges must be sealed to avoid humidity infiltration
Drilling	As per traditional Mirror
Bevelling	As per traditional Mirror
Heat Resistance	Up to 50 deg C
Moisture Resistance	Can be used where humidity levels are normal

Storage, Installation & Care

Delivery	Unloading is the responsibility of the customer at the agreed place of delivery which should be carried out as per Manual Handling Regulations.
Storage & Handling	Direct sunlight, high humidity, sudden change in temperatures, as well as chemical fumes, may damage the mirror. Mirrors must be stored vertically: do not lay mirrors flat or stand on wooden strips, felt or other relatively soft materials. When moving glass always wear gloves.
Bonding	We recommend using Solvent Free Mirror Adhesive such as Arbo Mirror Bond. Before installation it is recommended to test the adhesive before full installation
Care	The glass can be cleaned with a conventional glass/window spray cleaner & paper towel. We can recommend a product from Bohle UK Ltd product code BO 5107900 (cleaner) & BO 5141615 (paper towel role) For any small scratches these can be removed with a product called Clear Shield Rite Polish & is again available from Bohle UK Ltd Product code BC 3210500
Other	This product has been artificially aged to give a vintage effect. Due to the presence of small oxidation spots further aesthetical changes may occur after installation

Please refer to our web site for further details of our products.

Colour & Pattern Disclaimer

Due to the manufacturing process of our products, sources of supply, and finishing treatments, our products may differ slightly in specification and/or colour. Our Antique Mirror range is singularly treated on the surface to create a unique effect. Therefore, we can make no guarantee that our products will appear exactly as any photographs/web visual's or samples supplied.
